<Our Commitment>

We aim to develop the spirit of human dignity among children.

We raise the awareness of children as members of our local community.

We nurture leaders of the next generation in view of the rapidly changing international community.

To achieve these goals, we will establish foundations in academic skills, cultivate rich humanities, and promote health and physical fitness in a harmonious way.

We set the following goals

1. Foster independent attitudes towards identifying problems and problem solving to find better solutions on their own.
2. Cultivate attitudes of acceptance towards the values of others, and the ability to face events attentively and with geniality.
Express thoughts fluently, and improve both mental lives and physical fitness to lead better and healthier lives.
3. Help children to find their own potential and strengths. and to realize their better selves with independent views and ways of thinking.

<School Management Policies>

1. A child's school will be the place where children shine so much that they cannot wait for tomorrow.
2. Basic ideas "Inheritance of Tradition" and "Creation of the Next Generation"

<History>
